## Ingenuity Announces Expansion!

We are thrilled to share news of an expansion of our year-round home and incubator space, IngenuityLabs! Currently, there is greater demand for artist and maker space than we can supply, and this expansion will allow us to better meet the needs of the community. After surveying the resources offered by complementary spaces within Cleveland's landscape, Ingenuity has developed a clear vision and point of difference in our approach to activating the 300,000+ square former Osborne Manufacturing Co., which offers numerous loading docks, 3-phase power, multiple bridge cranes up to 20 tons, ceilings soaring to 30+ feet, and other resources allowing us to offer artists a working environment unmatched in the area.

Our newly expanded resources will serve Cleveland's creative landscape through the [IngenuityLabs Incubator](#) program, increasing its capacity from 24 current incubatees to at least 50 in coming months. The IngenuityLabs Incubator provides private studio and shop space, access to a shared workshop and makerspace, business development talks, and opportunities for growth and exhibition. We also plan to use new spaces to expand educational offerings, partnering with local schools and colleges.

If you are interested in learning more, join us for IngenuityFest 2023: Biologies & Geologies where the future footprint will be on display! Those interested in the expansion project can join as an [Agent of Ingenuity](#) for a VIP tour of the expanded facilities immediately following a VIP cocktail reception being held on Friday, September 22 from 6-8pm at the Crystal Palace stage. From there, Agents of

Ingenuity can follow Ingenuity's growth into 2024 and beyond, and receive special updates and benefits for their support.
